DIGITAL ASSETS

- 1) Create clear and precise investment objectives:
The right investment goals should be measurable and achievable. Success must be independent on a great return on investment or savings or spending requirements which is impractical.
- 2) Develop an appropriate asset allocation using diversified funds
broad: A good investment strategy starts with asset allocation to be the objective of the portfolio. That's allocation must be built on a reasonable basis expectations for risk and return and the use of diversified investments that should avoided
- 3) Minimize costs:
The market is unpredictable. Cost forever: 1 lower your costs, the bigger your share of a return on investment. And research indicates that 1 low cost investment likely to outperform more costly alternatives tall. To hold even more of you return, manage for e?ciency. You can't control the market, but you can control the bite cost and e?ciency.

DIGITAL ASSETS FINANCE

4) Maintain a long-term perspective and discipline: Investing can provoke strong emotions. In the face of market turmoil, some investors may find themselves making decisions impulsive or, conversely, becomes paralyzed, incapacitated executing investment strategy or balancing Reload portfolio as needed. Discipline and perspective can help them stay committed to the program long-term investments through periods of uncertainty
